

STRETCHER PRICING

Fredrix Standard Duty Stretcher Bars are a cost effective choice for smaller canvas prints or those on a budget. These strips have an industry standard profile of 3/4 of an inch, so framing is usually used with these stretchers. These bars are available locally so there is no shipping charge. Custom sizes are not available in this style. These bars are sold per unit so four bars are required to make one frame.

Gallery Stretcher Bars are the best ones that you will find on the market today in terms of technical quality, finish, and price. With a 1 3/4 inch profile these bars are perfect for prints with a gallery wrap that will not be traditionally framed. These bars are sold per unit so four bars are required to make one frame.

These bars are custom ordered for your print and will incur shipping charges. It usually takes one week to receive standard size stretchers. Estimate \$17 for orders under \$50. Oversized shipping charges for 60-72 bars inch apply.

Note that these are the only bars that are available in custom sizes not listed below. Turn around on custom sizes is 3-4 weeks. Add 15% to 20% for custom sizes.
